Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

j. Bulk Calling Line ID

Bulk Calling Line ID provides PBXs, multi-line hunt groups, and Centrex groups or individual lines with information about calls originating from outside. As an option, the customer can have the same information collected for intra-group calls.

Call information is transmitted from the terminating switch to customer-provided equipment at the customer's premises for recording and storage.

k. Computer Access Restriction

Computer Access Restriction allows a user to create a list of up to 31 telephone numbers from which calls will be accepted for computer access dial-up.

When the feature is activated, calls from numbers that are not on the user's Computer Access Restriction list are routed to an announcement that calls are not being accepted or forwarded to a user-specified number.

Using codes entered on the user's station set, the user can at any time: add numbers to or delete numbers from the Computer Access Restriction list; specify how non-accepted calls are treated; and activate or deactivate the feature.

l. Anonymous Call Rejection

Anonymous Call Rejection automatically routes incoming calls that are intentionally marked private to an announcement that such calls are not accepted. The user is not alerted to the incoming call. Calls with numbers or names that are unavailable due to network restrictions or other similar reasons complete normally.

The user can activate and deactivate Anonymous Call Rejection with dialed codes.

Anonymous Call Rejection is included with all Caller ID features. Lines without a Caller ID feature can subscribe to Anonymous Call Rejection as an individual feature.
