monthly rates to be applied for the dedicated trunk ports as set forth in Section 5.6.2 following.

#### ACCESS SERVICE

#### 4. SWITCHED ACCESS SERVICE (Cont'd)

##### 4.6 Obligations of the Customer (Cont'd)

##### 4.6.7 Design of Switched Access Service

When a customer orders Switched Access Service on a per line or per trunk basis, the customer shall take reasonable steps to assure that sufficient access services have been ordered to handle its traffic.

##### 4.6.8 Tandem Switching Providers

When tandem routed service is provided by a Tandem Switching Provider, and the customer(s) of record for the terminating switched access usage charges is the Tandem Switching Provider, the terminating minutes of use provided through the Tandem Switching Provider location are the responsibility of the Tandem Switching Provider. At the Tandem Switching Provider's request, the Telephone Company will bill each of the Tandem Switching Provider's customers directly for their respective usage, if the Tandem Switching Provider agrees to furnish the Telephone Company, free of charge, the call detail information necessary to bill its customers. [The Tandem Switching Provider shall submit this information to the Telephone Company daily] via Network Data Mover (NDM) electronic transmission in industry standard EMI format as set forth in BR-190402-215 and BR-010200-010. If the Tandem Switching Provider fails to provide the call detail information or fails to provide the information in the required format within thirty (30) days from the call activity date, then the Tandem Switching Provider will be billed for that day's usage. Where the total usage measured by the Telephone Company differs from the total amount of usage provided by the Tandem Switching Provider's call detail information, the Telephone Company will work cooperatively with the Tandem Switching Provider to resolve the discrepancies.
