   7.2.3   Shared Tenant Service

       .1   General

               Shared Tenant Service is a multi-station system furnished in apartment and
               townhouse complexes for the use of the residents. The "customer" for shared tenant
               service is the owner of an apartment complex or reseller for shared tenant service.
               This service enables the customer or locations served by the customer to originate
               and receive calls within its system at no additional charge. The customer is
               responsible for payment of all charges, including local and toll charges and all
               nonrecurring monthly charges.

               Each Shared Tenant Service Line has the following characteristics:

Terminal Interface:	2-wire
Signaling Type:	Loop start
Pulse Types:	Dual Tone Multi frequency (DTMF)
Directionality:	Two-Way, In-Only, or Out-Only, at the option of the customer
