

Section 4 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (cont'd)

4.4 REGULATIONS AND COMPUTATION OF MILEAGE

Calls for which rates are mileage sensitive are rated on the airline distance between the originating rate center and the terminating rate center.

4.4.1 Originating Rate Center

A customer's primary local exchange number includes an NXX code that is associated with a specific rate center. The originating point of all calls charged to that customer's account shall be the location of the customer's rate center.

4.4.2 Terminating Rate Center

The terminating point for all calls shall be the location of the local rate center associated with the called number.

4.4.3 Calculation of Mileage

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between any two rate centers is determined as follows:
