
ACCESS SERVICE

SECTION 5 - MISCELLANEOUS

5.1 Billing & Collection

The Company will provide the following services:

- * Recording Service
- * Automatic Number Identification (ANI)
- * Billing Name and Address (BNA)

5.1.1 Recording Service

Recording is the entering on magnetic tape or other acceptable media the details of customer messages originated through switched access service. Recording is provided 24 hours a day, 7 days a week.

The company will provide recording service in association with the offering of Switched access Service for customer messages that can be recorded by company-provided automatic message accounting equipment. At the request of the customer, recording service will be provided for switched access service on an end office and type of call basis. Type of call means message telecommunications service (MTS) including 700 and 900 service, calls originating and/or terminating over a WATS access line, and station message detail recording for MTS and calls originating from a WATS access line.

The company will provide recording service in its operating territory. The minimum territory for which the company will provide recording service is all the appropriately equipped offices in a state operating territory for which the customer has ordered switched access service.

For Switched Access Service, the term Acustomer message@ used herein denotes an intrastate call originated by a customer=s end user. Station message detail recording is an optional feature which provides a record of customer messages originated by MTS and WATS access lines.
