
ACCESS SERVICE

SECTION 5 - MISCELLANEOUS, (CONT'D.)

5.1 Billing & Collection (Cont'd.)

5.1.3 Billing Name and Address Service, (cont'd.)

B. Obligations of the Customer, (continued)

5. When the customer orders BNA service for both interstate and intrastate messages, the projected percentage of interstate use must be provided in a whole number to the company. The company will designate the number obtained by subtracting the projected interstate percentage from 100 (100-projected interstate percentage = intrastate percentage) as the projected intrastate percentage. This whole number percentage will be used by the company to apportion the rates and nonrecurring charges between interstate and intrastate in those circumstances where the recorded message detail is not sufficient to permit the company to determine the appropriate jurisdiction. This percentage will remain in effect until a revised report is received as set forth below.
6. The company shall use reasonable efforts to provide accurate and complete lists. The company makes no warranties, expressed or implied, as to the accuracy or completeness of these lists.

C. Rate Regulations

1. Service Establishment Charges apply for the initial establishment of BNA service on a manual basis and for the initial establishment of BNA service on a mechanized basis.
2. A charge applies for each request for BNA information for a telephone number or DTN number on a manual basis. A charge applies for each message processed to supply BNA information on a mechanized basis.

The company will keep a count of the requests and of the messages processed. The company will bill the customer in accordance with these counts whether or not the company was able to provide BNA information for all requests and messages.
