

PSC NO: 119 ELECTRICITY  
NEW YORK STATE ELECTRIC & GAS CORPORATION  
Initial Effective Date: 04/01/14

Leaf: 21  
Revision: 1  
Superseding Revision: 0

### GENERAL INFORMATION

#### 2. How Service May Be Obtained: (Cont'd.)

##### D. Application of Other Extension Plans:

Where the Company acquires facilities from another utility and the customers are served from a line extension constructed under a surcharge plan, the Company will continue to bill such customers the same surcharges as previously paid, or surcharges computed in accordance with the provision of the plan outlined in this Schedule, whichever may be lower.

##### E. Seasonal Service:

Each customer taking seasonal service shall guarantee a minimum seasonal charge of 12 times the per month Customer Charge as provided by S.C. No. 1 of P.S.C. No. 115 - Electricity or superseding issues thereof.

##### F. Unusual Conditions and Increased Loads:

1. Where the Corporation cannot be assured that the business to be served will be permanent or where unusual expenditures are necessary to supply service because of the location, size, or character of the applicant's or customer's installation, facilities will be constructed only when applicant or customer makes an adequate contribution toward the cost of such facilities, or guarantees continued payment of bills for electric service, or makes other satisfactory arrangements which would be sufficient to warrant the Corporation to undertake the investment and expense involved.
2. Customer shall give the Corporation reasonable advance notice, preferably in writing, of any proposed increase in service required, setting forth in such notice the amount, character, and the expected duration of time the increased service will be required. If such increase in load exceeds 150 kilowatts, and if it necessitates added or enlarged facilities (other than metering equipment) for the sole use of customer, the Corporation may require customer to make a reasonable contribution to the cost of adding or enlarging the facilities whenever customer fails to give assurance, satisfactory to the Corporation, that the taking of the increased service shall be of sufficient duration to render the supply thereof reasonably compensatory to the Corporation. The customer or the Corporation may apply to the Public Service Commission for a ruling as to the necessity for and reasonableness of the contribution required.

##### G. Temporary Service:

Where service is to be used for temporary purposes only, the applicant will be required to pay the cost, as defined in Paragraph 6, of the connection and removal of equipment necessary to serve. In such cases, an advance payment sufficient to cover all such costs and energy to be used may be required. Where the installation presents unusual difficulties as to metering the energy supplied, the Corporation may estimate the amount of energy consumed and may bill the customer in accordance with such estimated amount applied to applicable rate classification.
