- ii. If after the discovery of tampered equipment, the Company decides to terminate service to a customer because of a potential health or safety problem, it must determine, in accordance with this Section, whether a resident may suffer a serious impairment to health or safety as a result of termination. If the Company determines that a resident may suffer a serious impairment, it must follow the procedures set forth in this subdivision; provided, however, that continued service is not required if it is impractical for the Company to eliminate an unsafe condition. In any cases where a resident may suffer a serious impairment and the Company terminates service to preclude the continuation of an unsafe condition, the Company must specially notify the local social services official on the same day service is terminated and request an immediate consideration of the case.
