ACCESS SERVICE

4.   SWITCHED ACCESS SERVICE (Cont'd)

   4.7   Rate Regulations (Cont'd)

      4.7.9   Shared Billing Arrangement (Cont'd)

               Each Host Customer and Service User entering into a Shared Billing
               Arrangement is solely responsible to the Telephone Company for charges
               associated with that customer's portion of the shared multiplexed service.
               Disconnection of service by the Host Customer does not relieve the Service User
               of the shared multiplexed service of any obligation to pay access charges
               associated with the portion of the shared multiplexed service to which that
               Service User subscribes. Billing for services and facilities will continue until a
               disconnect request from the Host Customer or Service User has been received
               by the Telephone Company. The Host Customer of a Shared Billing Arrangement
               is solely responsible for notifying the connecting Service User(s) participating in
               the Shared Billing Arrangement in the event of disconnection of the Host
               Customer's service.

               For administrative purposes, one "Arrangement" under the Shared Billing
               Arrangement option shall be limited to one Host Customer permitting one
               Service User to connect a specified number of services to one specified
               multiplexer on the Host Customer's service. A subsequent request by the
               Service User to increase the number of services connected to the same
               multiplexer shall not constitute a new or separate "Arrangement".

               A Shared Billing Arrangement shall be established between a Host Customer and
               a Service User upon the completion of the service order for the first service(s) in
               the Arrangement. A Shared Billing Arrangement shall be deemed cancelled
               when the last service in the Arrangement belonging to the Service User has
               been disconnected.

               A Processing Charge will apply for each Service User order processed for a
               Shared Billing Arrangement. The Switched Access Service Shared Billing
               Arrangement Processing Charge is contained in Section 5.6.7 following.
