## ACCESS SERVICE

### 4. SWITCHED ACCESS SERVICE (Cont'd)

#### 4.7 Rate Regulations (Cont'd)

##### 4.7.10 Facility Hubs

A customer has the option of ordering DS1 or DS3 facilities to a facility Hub for channelizing to individual services requiring lower capacity facilities.

All transport provided to or from an Intermediate or Super-Intermediate Hub that is not the serving wire center of the customer designated premises or multiplexing node will be provided as Direct Trunked Transport.

Different locations may be designated as Hubs for different facility capacities, e.g., multiplexing from digital to digital may occur at one location while multiplexing from digital to analog may occur at a different location. Locations (wire centers) that provide multiplexing of DS1 or DS3 Services have been designated as Intermediate Hubs or Terminus Hubs (described in 2.6 preceding). When ordering the customer will specify the desired multiplexing Hub(s) selected from the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4 which identifies the type(s) of multiplexing functions which are available, the wire centers at which they are available and the wire centers that subtend DS3 to DS1 multiplexing Hubs.

End to end services may be provided on channels of these facilities to a Hub. The transmission performance for the end to end service provided between the customer and the selected end office(s) or tandem(s) will be that of the lower capacity. For example, when a DS1 facility is multiplexed to Voice Grade channels, the transmission performance of the channelized services will be Voice Grade, not DS1.

The Telephone Company will commence billing the monthly rate for the facility to the Hub on the date specified by the customer on the service order. Individual services utilizing these facilities must be installed at a later date. The customer will be billed for a DS1 or DS3 Channel Termination, Channel Mileage (when applicable), and the multiplexer at the time the facility is installed. Individual service rates (by service type) will apply for Channel Mileage for each channelized service. These will be billed to the customer as each individual service is installed.
