

PSC No: 19 - Electricity  
Rochester Gas and Electric Corporation  
Initial Effective Date: February 1, 2014  
Issued in compliance with Order in Case 13-E-0425 dated September 18, 2013

Leaf No. 160.39.9.2  
Revision: 0  
Superseding Revision: 0

### GENERAL INFORMATION

#### 19. Fuel Cell Electric Service Option (Cont'd)

##### B. Non-Residential Electric Service Option (Cont'd)

##### 4. Remote Net Metering (Cont'd)

##### d. Calculation and Application of Net Metering Credits

In a month where the Host Account has Excess Generation, the Excess Generation will be converted to the monetary value at the Company's Service Classification No. 5 Buy Back Service Energy only rate .

The remote net metering credit will first be applied to the Host Account's current electric bill. Any remaining monetary credit will be allocated between the Host Account and the Satellite Accounts. The portion designated for the Satellite Accounts will be applied to the Satellite Account bills as each subsequent Satellite Account bill is calculated. In the case of two Satellite Accounts billed on the same day, the credit will be applied to the highest usage account first.

The credit applied to each Host or Satellite Account shall not exceed the current electric delivery, and if applicable, utility supply charges. If a monetary credit remains after applying credits to all designated Satellite Accounts, the credit will be carried forward on the Host Account and the allocation process between Host and Satellite Accounts will repeat until the value of the excess credits is zero or until all associated accounts are finalized.

Upon the Company's determination that the customer has taken service under this Section 30 while in violation of the conditions of service set forth in this Schedule, the customer shall forfeit any positive balance accrued during the annual period in which the violation occurred.

##### e. Host Account Closure

Any remaining monetary credits will not be cashed out or transferred.
