## GENERAL INFORMATION

### 13. SERVICE CLASSIFICATION RIDERS (Continued)

#### RIDER N (Continued)

#### NET METERING FOR CUSTOMER GENERATORS

##### APPLICABILITY (Continued)

If a customer has solar, wind, and/or Micro-Hydro generating equipment as well as Micro-CHP and/or fuel cell electric generating equipment, each eligible for service under this Rider, the customer will qualify for service under this Rider only if the load served by the residential Micro-CHP and/or fuel cell electric generating equipment is not served under the same net-metered account as the load served by the solar, wind, and/or Micro-Hydro generating equipment.

Service under Rider N will be offered, on a first come, first served basis, to a limited level of participation. The total of the rated generating capacity of all the farm waste, residential solar, non-residential solar, Micro-CHP, Micro-Hydro, and fuel cell electric generators in the Company's service area shall not exceed 31.3 MW, or 3.0% of the Company's 2005 system peak demand. The total of the rated generating capacity of all residential, non-residential and farm wind electric generators in the Company's service area shall not exceed 3.1 MW, or 0.3% of the Company's 2005 system peak demand.

Service under this Rider is not available to customers taking service under Rider C.
