## GENERAL INFORMATION

### 13. SERVICE CLASSIFICATION RIDERS (Continued)

#### RIDER N (Continued)

#### NET METERING FOR CUSTOMER GENERATORS

#### BILLING (Continued)

(C) (Continued)

- (3) For customer-generators, except for fuel cells, that participate in Remote Net Metering, the net sale amount in kWh shall be converted to its equivalent monetary value at the Host Account's applicable tariff rate per kWh and applied, along with any prior period remaining monetary credits, as a direct monetary credit to the Host Account's electric bill for any outstanding energy, demand, customer, or other charges. For a Host Account served under Rider B, such applicable tariff rate shall exclude the System Benefits Charge, Renewable Portfolio Standard Charge, and the Revenue Decoupling Mechanism Adjustment. If the Host Account's monetary credits exceed the outstanding electric charges, all or a portion of the remaining monetary credit, as designated by the customer in its application for remote net metered service, shall be applied to the Satellite Account(s) in the order in which the Satellite Account(s) are billed until such time that the monetary credit is reduced to zero or all Satellite Account(s) have been credited. If more than one Satellite Account bills on the same day, the monetary credit shall be applied to the Satellite Accounts in order of kWh usage from highest to lowest.

If a monetary credit remains after all Satellite Accounts are credited the remainder of the monetary credit shall be carried forward to the succeeding billing period on the Host Account.

At the end of an annual period for farm waste, farm wind, residential solar or residential wind electric generators neither eligible for DAHP nor participating in Remote Net Metering, any cumulative net sale by the customer will be purchased by the Company at the rate specified in Special Provision (F) of Service Classification No. 15.
