REVISION: 8
SUPERSEDING REVISION: 7

SERVICE CLASSIFICATION NO. 11 (Cont'd)

FIRM TRANSPORTATION - Core (Cont'd)

SPECIAL PROVISIONS (Cont'd)

11.4 Not in use.

11.5 During the period November 1 through March 31, the MDQ, as set forth on a customer's service agreement, will be reset each time a customer's usage exceeds the MDQ on five separate days. The average of the five highest demands will establish the new MDQ which will be effective on the first day of the next calendar month. If a customer's usage exceeds the MDQ in effect on November 1 on five or more separate days during the period November 1 through March 31, the average of the five highest demands will establish the new MDQ which will be effective April 1.

The MDQ for a customer taking service under Service Classification No. 11 may be revised downward for a permanent reduction to the gas load on the customer's premises caused by installation of, or modifications to, gas equipment, including the possible installation of a propane-air facility. The amount of such downward adjustment to the MDQ will be reasonably determined based on engineering studies prepared by the customer and furnished to the Company and the Public Service Commission. Any such downward adjustment to the MDQ shall be effective beginning with the November 1 through March 31 period immediately following the date on which the changes in gas equipment are placed in service. Any Service Classification No. 11 customer proposing to reduce its MDQ based on a propane-air facility will provide the Public Service Commission and the Company written notice at least six months in advance of the date on which the proposed changes in gas equipment will be placed in service.

11.6 All customers taking service under this service classification are required to agree to have automated meter recording equipment furnished and installed by the Company at the customer's expense. The provisions included in this service classification require daily monitoring; therefore, all customers operating under this service are required to have installed automated meter recording equipment. The Customer agrees to prepay, to the Company, the cost of the automated meter recording equipment. In addition, the Customer shall furnish an electrical supply and a phone line necessary for the operation of the equipment, in an area which is acceptable to the Company.
