

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 04/22/2013  
Issued in compliance with order dated 04/19/2013 in Case 09-E-0115

Leaf: 277  
Revision: 3  
Superseding Revision: 2

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) - Continued

#### RIDER U – DISTRIBUTION LOAD RELIEF PROGRAM

Applicable to SCs 1, 2, 8, 9, 11, 12, 13, and 15  
(Subject to the provisions thereof)

##### A. Applicability

To any Full Service or Retail Access Customer taking service under the above SCs, including Customers taking Standby Service; to any customer of NYPA, NYCUS, or COWPUSA; and to any Aggregator that meets the requirements of this Rider.

##### B. Contracting for Distribution Load Relief Service

There are two programs under this Rider under which a Customer or Aggregator may contract to provide Relief during Load Relief Periods designated by the Company: the Voluntary Load Relief Program and the Summer Reservation Payments Program. The amount of Load Relief by a Customer must be at least 50 kW of load reduction or 50 kW of load delivery. The amount of Load Relief by an Aggregator must be at least 100 kW of load reduction or 100 kW of load delivery.

If other requirements for service under this Rider are met, Electric Generating Equipment (as defined hereunder) may be operated under this Rider, provided the Customer or Aggregator has provided the Company with generator information, including the unit's serial number, nameplate rating, manufacturer, and date of manufacture, and the Company has approved the interconnection of such equipment. Furthermore, participants enrolled in a NYISO market-based program offered by the Company, NYPA or other entity, such as the Day-ahead Demand Response Program or the Demand-Side Ancillary Service Program, must provide the Company with their NYISO generator identification number, under a confidentiality agreement, and give the Company the ability to view their market participation activity. This information will be used to verify the times of participation in these other programs to prevent double-payment during concurrent events. The participating Customer or Aggregator is responsible for determining that the operation of generating equipment under this Rider will be in conformance with any governmental limitations on operation.
