If the customer continues to subscribe to AT&T as their Primary Long Distance Carrier, and AT&T is notified that the customer no longer subscribes to AT&T as their Local Telephone Carrier and/or the customer no longer subscribes to AT&T One Rate Local Plan, AT&T will automatically place the customer on AT&T One Rate® Nationwide 10¢ plan, unless the customer requests otherwise. (C)

If AT&T is notified that the customer no longer subscribes to AT&T as their Primary Long Distance Carrier., discontinuance of their long distance portion of this plan will be effective as of the date AT&T's records show that the customer no longer subscribes to AT&T as their Primary Long Distance Carrier.

Customers can enroll in only one state-to-state pricing plan for AT&T direct dialed station calls for the access line that is associated with this plan unless AT&T notes otherwise.

AT&T will bill for this plan based on the following:

If the customer's main residential telephone account has multiple lines associated with it, a Monthly Recurring Charge will apply to each line that the customer has chosen for this plan. Unlimited direct dialed local calling will not be combined with other access lines that are associated with the customer's main residential telephone account. Usage charges associated with this plan for direct dialed intraLATA toll, in-state long distance, and state-to-state calling will be billed as if the customer has a single line account even though they have multiple lines, unless the customer subscribes to another pricing plan for the lines that are not associated with this plan.
