COMPANY: KEYSpan GAS EAST CORP. DBA BROOKLYN UNION OF L.I. REVISION: 1
INITIAL EFFECTIVE DATE: 06/01/13 SUPERSEDING REVISION: 0
STAMPS:

SERVICE CLASSIFICATION NO. 14 (Continued)

Any Customer subject to the standby fuel requirement that has not supplied the Company with the required proof will be charged a variable rate for interruptible gas service equal to the greater of 130% of the No. 2 oil gas equivalent price (as published in the Journal of Commerce) or 130% of the Customer's otherwise applicable variable sales rate, whichever is higher. Such variable rate will be in lieu of the Customer's otherwise applicable variable rate and will be effective commencing with the billing period in which non-compliance becomes known, and will continue in effect until the Customer provides the Company with satisfactory proof that the violation has been corrected. Such variable rate will be subject to all applicable utility taxes and surcharges. Consumers subject to this higher variable rate will continue to be subject to all terms and conditions of this Service Classification, including any applicable additional charges for gas consumed in violation of this Service Classification without the express written authorization of the Company.

CHARACTER OF SERVICE

For Customers taking service under Rate Schedule 1, service may be interrupted at the Company's discretion for up to 30 days during the calendar year. The Company may require a higher degree of interruptibility from the Customer in cases where the Company determines that the Customer's requirements cannot be served by the Company for up to 335 days. For Customers taking service under Rate Schedule 2, service may be firm or interruptible, as mutually agreed upon by the Customer and the Company. Subject to the provisions of this Service Classification, the Company will transport natural gas, owned by the Customer, that meets the quality specifications hereof from a mutually agreed upon existing point for direct receipt by the Company of pipeline supplies, to a specified delivery point on the Company's existing facilities at the Customer's point of service.

The Company shall control the dispatch of gas received for transportation. Transportation service hereunder shall be available only upon a Company determination that its existing delivery capacity and facilities are adequate to (i) supply the total estimated gas requirements of its customers receiving service under sales service classifications and core transportation service classifications, and (ii) provide the transportation service required for the term of service hereunder. The Company will not be obligated to expand its facilities or construct new facilities for potential customers seeking service under this Service Classification.
