INTEREXCHANGE SERVICE TARIFF

---

**TARIFF FORMAT**

- A. Page Numbering:** Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.
- B. Page Revision Numbers:** Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Page 13 cancels 3rd Revised Page 13. Consult the Check Page for the sheets currently in effect.
- C. Paragraph Numbering Sequence:** There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1
  - 2.1.1
  - 2.1.1.A
  - 2.1.1.A.1
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).I
  - 2.1.LA.1.(a).I.(i)
  - 2.1.1.A.1.(a}.I.(i).(1)
- D. Check Pages:** When a tariff filing is made with the Commission, an updated Check Page accompanies the tariff filing.

The Check Page lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Page to find out if a particular sheet is the most current on Commission file.
