
INTEREXCHANGE SERVICE TARIFF

SECTION 3
DESCRIPTION OF SERVICES

3.1 Outbound Services (continued)

3.1.3 Dedicated Access

(A) Direct Access

Direct Access is an outbound only, long distance pricing plan for Customers that utilize Dedicated Access to reach the Company's switch or the DUC's POP. The Customer is responsible for obtaining the Dedicated Access required to provision this service. Direct Access is available to Business Customers. Calls are billed in six (6) second increments. There are three rate levels depending on AATU at the time the order for service is provisioned by the Company.

Rate Level	AATU
1	Less Than \$50,000
2	\$50,000 But Less Than \$100,000
3	\$100,000 & Above.

If the Customer's average monthly use decreases to below 50% of AATU, the Company reserves the right to change the Customer's rate level. For the purpose of determining average monthly usage, a partial billing month is not used in the calculation. Average monthly usage is calculated using a minimum of three full month's billing.
