INTRASTATE COMMUNICATIONS SERVICES TARIFF

SECTION 1 - DEFINITIONS

As used in this tariff, the following terms shall have the following meanings:

Application for Service - A standard order form which includes all pertinent billing, technical and other descriptive information which will enable Carrier to provide the specified communication services.

Authorization Code - A numerical code, one or more of which are assigned to a 'Customer to enable Carrier to identify use of service on the Customer's account and to bill the Customer accordingly. Multiple authorization codes may be assigned to a Customer to identify individual users or groups of users. All authorization codes shall be the property solely of the Carrier, and a Customer shall have no property or other right or interest in the use of any particular authorization code.

Bandwidth - The total frequency, in Hertz, allocated for a channel.

Billing Cycle - A monthly period used as the basis for recurring charges or usage requirements.

Business Customer - A Customer who subscribes to or makes use of Carrier's service in the name of a business, trade or profession, or whose usage is associated with non-personal activities.

Carrier - Taconic TelCom - used throughout this tariff to mean Taconic TelCom Corp. d/b/a FairPoint Long Distance.

Carrier's Point of Presence - Location of the local telephone company central' office which provides Feature Group or other connections to the Carrier's terminal.

Carrier's Terminal - The Carrier's switching equipment.

Customer - The person, firm, corporation or other entity which utilizes service provided by the Carrier, either on a subscription basis or casual use basis. A Customer is responsible for the payment of charges and for compliance with all terms of Carrier's tariff.

Dialed Access - An arrangement whereby a Customer uses the public switched network facilities of a local exchange telephone company to access the Carrier's terminal.

Direct Access - An arrangement whereby a Customer uses facilities other than the public switched network facilities of a local exchange telephone company to access the Carrier's terminal.
