Leaf 59.2
Revision: Original

Section 6 - Business Services (cont'd)

6.7. Business Services (Cont'd)

6.7.2. Private Line Service (Cont'd)

- A. Charter Business[®] Optical Ethernet Services (Cont'd)
2. Optical Ethernet Service Types and Descriptions (Cont'd)
- c. Ethernet Private Local Area Network (EP-LAN) – E-LAN provides a private metro “LAN”

Ethernet network, providing the ability to share bandwidth between multiple Ethernet locations. The service connects a dedicated channel of bandwidth to a single customer that is shared among the customer's locations. These locations may exchange traffic via the shared connection as required. For example, any port could send information to any other port (any-to-any) or 56 multiple ports could send all of their traffic to a single port. EP-LAN does not allow for service multiplexing as a dedicated UNI (User Network Interface) is used

d. Service Features

The Charter Business[®] Optical Ethernet service offers full duplex connectivity between sites with speeds ranging from 10Mbps up to 10Gbps, scalable in 10Mbps increments. Specific equipment is used at the customer premises to deliver the service. All equipment is MEF compliant.

B. Charter Business[®] Ethernet

Charter Business Ethernet provides transparent network connectivity of point-to-point, point-to-multipoint or multi-point to multi-point configurations via the Company's hybrid fiber-coax (HFC) network which may provide an HFC only private network solution or may be intermixed with Optical Ethernet endpoints.

C. Charter Business[®] Optical Transport Service

A secure private connection delivers high-quality fiber-optic service between two or more sites. A private connection delivers transmission speeds ranging from TDM (DS1, DS3) to high-end SONET (OC3, OC12, OC48), and wavelength services.

D. Charter Business[®] Optical Layer 3 VPN

Optical Layer 3 VPN service provides private IP connectivity between two or more sites within a metropolitan or regional area. The service offers data rates ranging from 10 Mbps to 10 Gbps.
