SERVICE CLASSIFICATION No. 19 – continued

C.   CHARACTER OF SERVICE

Firm, interruptible or temperature-controlled aggregated transportation, balancing and swing service, as determined by the Character of Service provisions of the sales service classification corresponding to the applicable transportation service classification for the Customers in the Pool, which provisions are incorporated herein by reference. Subject to the provisions of this Service Classification, the Company will transport gas, owned by the Pool, that meets the quality specifications hereof from the Company's city gate points of receipt as described in the GTOP Manual to specified delivery points on the Company's existing facilities at the point of service for each Customer in the Pool.

The Company shall control the dispatch of gas received for transportation.

D.   QUALIFICATION OF SELLER

For qualification requirements please refer to the Uniform Business Practices for Retail Access Section 3 - Creditworthiness.

E.   STATEMENT OF SELLER CHARGES AND ADJUSTMENTS

Sellers shall pay rates and charges as set forth on the Statement of Seller Charges and Adjustments which shall be filed by the Company with the Commission not less than four business days following the last day of each month.

The Statement of Seller Charges and Adjustments shall contain the following charges:

1. Swing Service Demand Charge

Applicable to Sellers participating in the Company's Non-Core Monthly Balancing Program.

The Swing Service Demand Charge is a per dekatherm charge of the cost of firm pipeline transportation capacity, storage capacity and supply contracts the Company uses to provide swing service to Sellers serving SC 18 customers under the Non-Core Monthly Balancing Program.
