SECTION 4 - INTRALATA TOLL PRESUBSCRIPTION (Cont'd)

4.2 Pre-subscription Charge Application

4.2.1 Initial Free Pre-subscription Choice for New Users

New end users (including existing customers who order an additional line) who subscribe to service will be asked to select a primary ITP when they place an order for Company Exchange Service. If a customer cannot decide upon an IntraLATA toll carrier at the time, the customer will have thirty (30) days following completion of the service request to make an IntraLATA PIC choice without charge. In the interim, the customer will be assigned a "No-PIC" and will have to dial an access code to make IntraLATA toll calls. The free selection period available to new end users is the period within thirty (30) days of installation of the new service.

Initial free selections available to new end user are:

1. Designating an ITP as the end user's primary carrier, thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101-XXXX or other required codes.
2. Choosing no carrier as a primary carrier, thus requiring 101-XXXX code dialing to access all ITPs. This choice can be made by directly contacting the Company.
