The adjustments are made only for (1) resold originating intrastate MIS/WATS or MTS/WATS-type minutes of use for which Switched Access Service and Carrier Common Line Access Charges have been assessed on the underlying carrier or (2) resold Telephone Company Private Line service. To obtain such adjustment, the customer must provide information as set forth in 3.4(G) following.
- (F) Pursuant to the Public Service Commission Order in Case 90-C-0082 effective August 15, 1990, the following regulations detail the phaseout of Carrier Common Line Charge exemptions for those customers whose underlying carrier is not assessed Switched Access Service and Carrier Common Line charges:
- (a) Interexchange Carriers and resellers currently receiving exemptions from Carrier Common Line Charges will have the number of such exempted access minutes capped. The maximum number of such exempted minutes will be the monthly average for that Interexchange Carrier/reseller for the year ending May 31, 1990. For those Interexchange Carriers/resellers in operation less than a year, such exempted access minutes of the predecessor company, if any, will be counted, where applicable. To the extent that twelve months' data are not available, either from the present or predecessor Interexchange Carrier/reseller, all available data will be used to determine the monthly average.
