

Airus, Inc. d/b/a Airus of New York
P.S.C. NO 1 Telephone
Effective Date: July 11, 2014

Leaf 43
Revision: 0
Superseding revision:

SECTION 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.23 Telecommunications Service Priority (Cont'd)

2.23.2 TSP Request Process – Restoration

For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.

- a. Submit the SF 315 to the OPT.
- b. Upon receipt of the TSP Authorization Code from the OPT, notify the Company and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

2.23.3 TSP Request Process – Provisioning

2.23.3.1 To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.23.2.a. through 2.23.2.e above for restoration priority assignment except for the following differences. The user should:

- a. Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.23.2.a. above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
- b. Verify that the Company cannot meet the service due date without a TSP assignment.
