3.6.1 Travel Service

Travel Service is provided to Residential Customers for originating calls when away from the home or office, by dialing a Company-provided toll-free access code or number, entering the destination number and entering the Customer's Authorization Code. Calls are billed to the method of payment indicated by the Customer.

Travel Service calls placed by the Customer can be made on a fully automated basis or with the assistance of a live Company operator. The following types of calls are available with Travel Service:

Types of Operator Assisted Calls

- (A) Station-to-Station Fully Automated - The Customer dials a toll-free access number or code plus the destination number. The caller enters the necessary travel/calling card digits or other billing information (e.g., name of called party for Collect Calls) when prompted by the Company's automated operator system.
- (B) Station-to-Station Operator Assisted - The Customer dials a toll-free access number or code plus the destination number and utilizes the assistance of a live operator to bill the call (e.g., operator enters travel/calling card digits or other billing information).
- (C) Station-to-Station Operator Dialed - The Customer dials a toll-free access number or code only and utilizes the assistance of a live operator to enter the destination number and bill the call (e.g., operator enters travel/calling card digits or other billing information).

¹ Effective June 12, 2014, the Travel Service calling card billing option will no longer be offered to new Residential Customers. Existing Residential Customers may keep their cards until they move locations or make changes to their service. In such cases, the calling cards will be deactivated. (N)
