GENERAL TARIFF

EXPLANATION OF TERMS

Demarcation Point (Cont'd)

The point of interconnection of the Company communications facilities and terminal equipment, protective apparatus or wiring at a customer's location.

- Residence Customers

The demarcation point for a single unit residence customer is located within twelve (12) inches of the protector, or if there is no protector, within twelve (12) inches of where Company wiring enters the customer's premises. An existing SNI/NI shown on Company records will not be relocated to the demarcation point with the effective date of this Tariff except as specified in Section 1.C.1.b.(2) of this Tariff.

The demarcation point for a multi-unit residential customer is located within the customer's premises at a point no further than twelve (12) inches from where Company wiring enters the customer's premises. An existing SNI/NI shown on Company records will not be relocated to the demarcation point with the effective date of this Tariff except as specified in Section 1. C.1.b.(2) of this Tariff.

- One and Two Line Business Customers

The demarcation point for a single unit business customer subscribing to one or two lines is located within twelve (12) inches of the protector, or if there is no protector, within twelve (12) inches of where Company wiring enters the customer's premises. An existing SNI/NI shown on Company records will not be relocated to the demarcation point with the effective date of this Tariff except as specified in Section 1. C.1.b.(2) of this Tariff.

The demarcation point for a multi-unit business customer subscribing to one or two lines is located within the customer's premises at a point no further than twelve (12) inches from where Company wiring enters the customer's premises. An existing SNI/NI shown on Company records will not be relocated to the demarcation point with the effective date of this Tariff except as specified in Section 1.C.1.b.(2) of this Tariff.

-- Multiline (more than two lines) Business and Private Line Business Customers in Single Tenant Buildings

- Buildings with Verizon New York Inc. Riser Cable
The demarcation point is located within twelve (12) inches of each existing House/Riser Terminal.
- Buildings without Verizon New York Inc. Riser Cable
The demarcation point is located within twelve (12) inches of the protector, or if there is no protector, within twelve (12) inches of where the Company's wire enters the building.
