* The monthly amounts set forth in this rate table are based on the costs that Verizon incurs in providing the relevant products or services, as determined by the New York State Public Service Commission. Verizon recovers those costs in part through the interstate End User Common Line ("EUCL") charge. Thus, to the extent that the EUCL applies to a product whose monthly rate is listed in this rate table, the intrastate monthly recurring charge for that product - *i.e.*, the charge imposed under authority of this tariff - is equal to the total cost shown in the rate table, less the amount of the EUCL, as that amount may change from time to time. Accordingly, in such cases, any surcharges that apply to intrastate charges or revenues under Verizon's New York tariffs will be computed on the basis of the intrastate monthly recurring charge only, and not on the basis of the total cost as shown in the rate table. Nothing in this tariff is intended to establish any rules, regulations, or rates applicable to the EUCL.

Verizon reserves the right to change this tariff should any restructuring or other change in interstate rates significantly affect the role of the EUCL as a cost recovery mechanism for the products at issue here.

When a customer utilizes the port rate from Section 14.12 of this Tariff, the equivalent link amount is the full service line amount reduced by the corresponding port rate in Section 14.12.

£ Service Connection Charges for business service apply as specified in Section 14.7 of this Tariff. Moves or additions are subject to existing tariff rates and charges for business service.
