## GENERAL RULES

### 24. Service Classification Riders (Available on Request) - Continued

#### RIDER L - DIRECT LOAD CONTROL PROGRAM - Continued

##### C. Definitions - Continued

An “Event” may be declared by the Company when:

1. the NYISO declares an emergency in conjunction with an in-day peak hour forecast response to an operating reserve peak forecast shortage as defined in Section 4.41 of the NYISO Emergency Operations Manual, or in response to a major state of emergency as defined in Section 3.2 of the NYISO Emergency Operations Manual, or at the NYISO’s discretion to relieve system or zonal emergencies;
2. the next contingency on the Company’s system would result in a Condition Yellow or a voltage reduction of five percent or greater has been ordered. A Condition Yellow exists when the next contingency (excluding breaker failure) either will result in an outage to more than 15,000 customers or will result in some equipment being loaded above emergency ratings; or
3. the Company determines that a system-wide peak or specific network peak may occur.

“Service Provider” means a provider registered with the Company to develop, maintain, and operate a communications portal that enables Internet-connected Control Devices to participate under this Rider. A list of current Service Providers is available on the Company’s website.

##### D. Applications

Applications to participate under this Rider may be made throughout the year either electronically or in writing. Applications will be accepted until annual program costs (e.g., equipment, installation, maintenance, and payments made to Customers) reach \$4 million.
