GENERAL TARIFF

PUBLIC TELEPHONE SERVICES

- A. PUBLIC ACCESS LINES (Cont'd)  
2. Types of PALs and Feature Descriptions (Cont'd)  
b. Limited InterLATA Dialing Public Access Lines

Limited InterLATA Dialing Public Access Line (LIDPAL) is a class of service, where interLATA calling is limited to 0+ calling through the carrier's presubscribed operator service provider (if equipped). Casually dialed interLATA calls, where 10XXX precedes the traditional dialing pattern to identify the carrier of choice, will also be limited to 0+ interLATA calling (10XXX + 0+ area code and seven digit telephone number). LIDPAL offers PAL subscribers a vehicle for allowing interLATA 10XXX access while minimizing exposure to fraud.

This service includes Outward Call Screening, International Direct Distance Dialing (011) Blocking, and Blocking Option 4 features (see Part B of the Product Guide) and will be provided in equal access and adjunct equipped central offices where facilities permit. Billed Number Screening, as described in Paragraph A.2.a preceding, is an option available to LIDPAL.

As an alternative, the customer may subscribe to Enhanced LIDPAL which provides all the features of LIDPAL except that, in lieu of Blocking Option 4, it provides for blocking access to central office prefixes 394, 540, 550, 910, 920 and 970 and the service access codes 700 and 900. No other blocking options are available for Enhanced LIDPAL.

- (1) Limited InterLATA Dialing (LID) is provided through business Public Access Lines to Customer Owned Coin Operated Telephones, or to other registered telephone terminal equipment when not accessed by Customer Owned Coin Operated Telephones.
- (2) Limited InterLATA Dialing is provided as a one or two way measured class of service.
- (3) The Limited InterLATA Dialing class of service will be provided in central offices having equal access capability derived through adjunct equipment where facilities permit.
