

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 04/23/2014  
Issued in compliance with order in Case 13-E-0573 dated 03/13/2014

Leaf: 281  
Revision: 3  
Superseding Revision: 2

## GENERAL RULES

### 24. Service Classification Riders (Available on Request) - Continued

#### RIDER U – DISTRIBUTION LOAD RELIEF PROGRAM - Continued

##### E. Metering - Continued

3. For participation under this Rider, the metering equipment and telecommunications service must be installed and made operational prior to the Company's acceptance of a completed application. Participation under this Rider will commence the first day of the first month within the Capability Period that occurs at least 30 days after both the interval metering and telecommunications service become operational, but no later than July 1 for the 2014 Capability Period and June 1 for subsequent Capability Periods.
4. The Company will provide the status of the meter installation to applicants: (i) within three weeks of the date that payment is received if the meter has landline telecommunications capability and (ii) within three weeks of the later of the Company's receipt of payment for an upgrade to interval metering with wireless communications capability and receipt from the participant of the active Internet Protocol ("IP") address that the wireless carrier has assigned to the modem's ESN. The Company will install the requested metering within that time frame, provided that the application for participation in the program is otherwise approved. If the Company misses the installation time frame for the Reservation Payment Option, it will make a "lost" Reservation Payment to the Direct Participant or Aggregator equal to the pledged kW and associated Reservation Payment per month starting with the first month in which the first day is later than three weeks after the Company received payment and ending with the month in which the installation is completed; provided, however, that the Company will not be required to make a lost Reservations Payment if it missed the installation time frame due to reasons outside of its control, such as a landline not installed by the telephone company, or if, at the Company's request, the Commission grants the Company an exemption due to a major outage or storm.
