

Clear Rate Communications, Inc.
Effective Date: June 6, 2014

PSC NY No. 1 - Communications
Section: 5
Leaf: 2

5.1.2 Basic Local Exchange Service

Basic Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number on, the Company switching network that enables the Customer to:

- A. receive calls from other stations on the public switched telephone network;
- B. access the Company Local Calling Services and other Services as set forth in this tariff;
- C. access interexchange calling services of the Company and of other carriers;
- D. access (at no additional charge) to Company operators and business office for service related assistance;
- E. access toll-free telecommunications services such as 800 NPA; and access toll-free emergency services by dialing 0 or 9-1-1 (where available);
- F. access relay services for the hearing and/or speech impaired.

Basic Local Exchange Services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company switch. Each Basic Local Exchange Service corresponds to one or more telephonic communications channels that can be used to place or receive one call at a time.

Individual line Residence and Business Basic Local Exchange Service is comprised of exchange access lines defined as follows:

Exchange Access Line - The service central office line equipment and all the Company plant facilities up to the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariff use offering selected by the Customer.
