 Revision: 3
 Superseding Revision: 2

GENERAL RULES

Application Forms – Continued

Form G – Application for Net Metering or Standby Service and/or Buy-Back Service- Continued

Section 5. If you request Standby Service – Continued

D. If you use Efficient CHP

The requirements for Efficient CHP are described in Section 7 of this Addendum Application. If your premises will be supplied by Efficient CHP that is rated over 2 MW but no more than 20 MW and connected to the Company's high-tension distribution system, check below if:

- You request Standby Service for a single-low tension account pursuant to General Rule 20.2.1(B)(7) of the rate schedule.
- You request Standby Service for two or more of your accounts at your premises pursuant to General Rule 20.2.1(B)(8) of the rate schedule.

E. Contract Demand

Contract Demand can be set by you or by the Company, as described in General Rule 20.4.3 of the rate schedule. The Company will determine your Contract Demand if you either check off the box below or do not state your Contract Demand. If you set your own Contract Demand, it will be subject to review and approval by the Company unless the generation is installed at an existing premises with no increase in load or capacity requirements.

- Con Edison should determine my Contract Demand.

If you set your own Standby Service Contract Demand, please specify:

- Contract Demand, unless you request service under General Rule 20.2.1(B)(8):
(Low Tension) _____ kW or (High Tension) _____ kW
- Contract Demand for each account to be served, if you request service under General Rule 20.2.1(B)(8):

<u>Account #</u>	<u>Service Address</u>	<u>Contract Demand kW</u>	<u>Low Tension or High Tension</u>

(Attach a sheet if you have additional accounts.)

Check below if:

- The generator is being installed at an existing premises with no increase in load or capacity requirements.
