## 9. AT&T DEDICATED ETHERNET SERVICE

### 9.6 Types of Rates and Charges

#### 9.6.1 Non-Recurring Charges

Non-Recurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service) related to the provisioning of AT&T Dedicated Ethernet Service. The types of Non-Recurring charges that apply for AT&T Dedicated Ethernet Service are:

Installation of Service

A charge which applies to each service installed.

Administrative Charge

A charge which applies for each service order.

Design and Central Office Connection Charge

A charge which applies any time a customer-initiated order for service requires engineering design and/or connection or changes at the Company central office. This charge applies once per circuit.

Customer Connection Charge

A charge which applies any time a customer-initiated order for service requires connection or changes to a Port Connection. This charge applies once per Port Connection affected by the order.

Installation of Optional Features and Functions

Non-Recurring charges apply for the installation of the optional features and functions available with AT&T Dedicated Ethernet Service. The charge applies whether the feature or function is installed coincident with the initial installation of service or at any time subsequent to the installation of the service.

Service Rearrangements

Service rearrangements are changes to existing (installed) services which do not result in either:

- A change in the minimum period of the service, or
- A change in the physical location of the point of termination at a Customer Site.

#### 9.6.2 Recurring Charges

Recurring Charges are rates that apply each month, or fraction thereof, that the service is provided. For billing purposes, each month is considered to have 30 days.
