Section 9
Leaf No. 2
Revision: 0

9. AT&T DEDICATED ETHERNET SERVICE

9.2 Geographic Availability

AT&T Dedicated Ethernet Service provides intraLATA transport service where suitable equipment and facilities are available in selected areas within the LATAs served by the Company.

Where facilities are not available, facilities may be constructed, subject to certain conditions as determined by the Company. Special Construction charges may apply as provided in the General Regulations (Section 2) of this Tariff.

9.2.1 Corridor Telecommunications Service (CTS) New York – New Jersey

CTS New York - New Jersey provides Customers with the ability to originate interstate service in selected areas in the State of New York and terminate them in selected areas in the State of New Jersey. CTS New York - New Jersey also provides a corresponding capability to originate service in selected areas in the State of New Jersey and terminate them in selected areas in the State of New York. Service may be originated and terminated within the Counties and area codes of Westchester, Nassau and Suffolk in New York, and the City of New York. Service may be originated and terminated within the Counties and area codes of Essex, Hudson, Bergen, Union and Passaic in New Jersey.
