2. RULES RELATING TO THE INSTALLATION OF MAINS, SERVICES, EXTENSIONS, ETC.: (CONT'D)

H. Customer Charges for Additional Facilities: (Cont'd)

- (3) In areas where gas service is supplied directly from high pressure pipelines used for transmission of gas at pressures in excess of those carried in pipelines utilized for distribution purposes, the Company shall, at the Customer's expense, furnish and install the necessary field regulator or regulators required to reduce the pressure at the high pressure pipeline to a suitable distribution pressure; said regulator or regulators and required fittings and connections to be installed at the point of connection between the Customer's service line and the high pressure pipeline. The Company shall also, at the Customer's expense, furnish and install a safety device so adjusted as to operate and relieve any pressure on the Customer's service line deemed by the Company to be unsafe or too high for satisfactory service. The Company shall also, at the Customer's expense, furnish and install satisfactory housing for the regulator equipment and for the meter to be installed by the Company.

The Company shall, at its expense, furnish, install and maintain a suitable service regulator as provided to customers in areas served by medium pressure distribution facilities and, also, a suitable meter for the measurement of the gas. In addition, the Company shall, upon reasonable notice, in the interest of safety, or satisfactory service, provide adjustment or maintenance service on all pressure regulating equipment; however, any materials which may be required in the servicing and maintenance of regulating equipment furnished at the customer's expense shall be subject to charges in accordance with Section 8.D.(1) and 8.J.(1) of this Schedule.
