PSC NO: 119 ELECTRICITY  
NEW YORK STATE ELECTRIC & GAS CORPORATION  
Initial Effective Date: 06/19/15

Leaf: 22  
Revision: 2  
Superseding Revision: 1

#### GENERAL INFORMATION

2. How Service May Be Obtained: (Cont'd.)  
G. Temporary Service (Cont'd):

If a distribution line is required to be extended in order to provide the temporary service, the applicant shall pay the Company's full costs and expenses for the installation and removal of the distribution line.

As a general rule a trailer is considered to be a non-permanent installation. A trailer, building or structure shall be considered permanent when it is not movable and set on and permanently attached to a masonry foundation and connected to a permanent water supply and septic/sewer system. The permanent water supply and the septic/sewer system must be approved by the appropriate municipality or agency having jurisdiction in the area. A foundation under this Rule does not include a concrete or cement pad.

Temporary service shall be furnished under the applicable Service Classification without term limitation.

- H. Standby: Auxiliary or Breakdown Service  
Customers operating power generating equipment and having equipment that may be operated by privately generated power or by purchase power, may contract for service under an applicable Service Classification. The customer shall not operate their own power generating equipment in parallel with the Company's service except under control by, and with the Company's consent.
