## GENERAL INFORMATION

### 2. How Service May Be Obtained: (Cont'd.)

#### B. Extension of Facilities (Cont'd.)

##### (6) Underground Allowances for Provision of Service:

##### (a) Allowance for Required Residential Underground Service:

Where the Company is required, by the Commission or a governmental authority having jurisdiction to do so, to provide residential underground service, the cost and expense which the Company must bear, except as otherwise provided in this tariff, shall include all costs for up to a total equivalent of 100 feet of underground electric facilities (including supply line, distribution line, and service line) per dwelling unit served, measured from the Company's existing overhead electric system (from the connection point on the bottom of the riser pole for overhead to underground connections) to each applicant's meter or point of attachment with respect to each residential building. Where the application is for service to a multiple occupancy building, the Company shall bear the material and installation cost for up to 100 feet of underground line times the average number of residential dwelling units per floor.

##### (i) Agreed to maintain the required clearance and grading during construction by the Company.
