 Rochester Gas and Electric Corporation  
 Initial Effective Date: June 19, 2015

Leaf No. 41  
 Revision: 2  
 Superseding Revision: 1

## GENERAL INFORMATION

### **3. EXTENSION AND MAINTENANCE OF COMPANY FACILITIES TO SERVE CUSTOMER (Cont'd)**

#### **A. DISTRIBUTION LINE EXTENSIONS (Cont'd)**

(5) **Additional Obligations Of Non-Residing Applicants**

Before service is provided a non-residing applicant shall comply with the requirements required of the applicants, Rule 3.A.(3) and in addition shall have:

- (a) Cleared any right-of-way conveyed to the utility of tree stumps, brush and other obstructions and graded such right-of-way to within six inches of final grade at no charge to the Company where electric distribution lines, service lines, or appurtenant facilities are required to be installed underground or shall be placed underground at the request of the applicant;
- (b) Provided a survey map certified by a licensed professional engineer or land surveyor and certified to as final by the applicant, showing the location of each dwelling (if known), lot, sidewalk and roadway;
- (c) Placed and agreed to continue to maintain survey stakes indicating grade and property lines;
- (d) Furnished to the Company or agreed to furnish a map showing the location of all existing and proposed underground facilities, as soon as the location of such facilities is known, and prior to commencement of construction by the Customer;
- (e) Agreed to maintain the required clearance and grading during construction by the Company,
- (f) if required by the Company, paid contributions and deposits in accordance with Rule 3.J.(2).

(6) **Underground Allowances for Provision of Service.**

(a) **Allowance for Required Residential Underground Service.**

Where the Company is required, by the Commission or a governmental authority having jurisdiction to do so, to provide residential underground service, the costs and expenses which the Company must bear, except as otherwise provided in this tariff, shall include all costs for up to a total equivalent of 100 feet underground electric facilities (including supply line, distribution line and service line) per dwelling unit served, measured from the Company's existing overhead electric system (from the connection point on the bottom of the riser pole for overhead to underground connections) to each applicant's meter or point of attachment with respect to each residential building. Where the application is for service to a multiple occupancy building, the Company shall bear the material and installation cost for up to 100 feet of underground line times the average number of residential dwelling units per floor.

- (i) Agree to maintain the required clearance and grading during construction by the Company.
