

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: July 27, 2015
Issued in compliance with Notice in Case15-E-0035, dated January 15, 2015

Leaf No. 160.39.4.1
Revision: 4
Superseding Revision: 3

GENERAL INFORMATION

16. Farm Waste Electric Generating System Option

I. Remote Net Metering

1. Definitions

Host Account: The customer meter where farm waste generation is located and interconnected with the Company's distribution system.

Satellite Accounts: Additional meters designated by the Host Account with the same name on the account, for the application of excess net metering credits.

Excess Generation: the electricity (kWh) supplied by the customer to the Company during the billing period exceeds the electricity (kWh) supplied by the Company to the customer.

2. Customer Requirements and Eligibility

A customer participating in Farm Waste Electric Generating System Option may designate all or a portion of the excess credit, after application to the Host Account, to Satellite Accounts at any property owned or leased by such customer within the same load zone as determined by the Locational Based Market Price. This will be completed on a form when submitting their initial remote net metering application.

Satellite Accounts must be held by the same customer and have an identical billing name, on property owned or leased by such customer. The utility reserves the right to investigate/obtain proof that all designated accounts are held by the customer. Satellite Accounts cannot also participate in: Wind Electric Service Options; or Solar Residential Electric Service Option; or Solar Non-Residential Electric Service Option; or Farm Waste Electric Generating System Option; or Electric Hybrid Generating System Option; or Micro-combined Heat and Power Service Option; or Fuel Cell Residential Electric Service Option. Satellite Accounts can only have one Host Account.

3. Enrollment and Change Period

After the customer's initial application, the enrollment and change period is from January 1 through January 31. Any changes will be effective with the initial Host Account billing after March 1.

Remote Net Metering customers may submit a change request form annually during the change period to designate additional Satellite Accounts or delete existing active Satellite Accounts. The customer may also change the portion (percentage) of excess to remain at the Host Account once per year.

4. Calculation and Application of Net Metering Credits

a. Facility Located and Used at Farm Operation

In a month where the Host Account has Excess Generation, the Excess Generation will be converted to the equivalent monetary value at the per kWh rate applicable to the Host Account's service classification.

For Non-Hourly Pricing customers, remote net metering credits shall be defined as the Excess Generation multiplied by the Host Account's applicable tariff per kWh rates. For Hourly Pricing customers, as defined under Billing for Hourly Pricing customers, remote net metering credits shall be defined as the excess monetary credit.

b. Facility Located and Used at Premises

In a month where the Host Account has Excess Generation, the Excess Generation will be converted to the monetary value at the Company's Service Classification No.10 Buy Back Service Energy only rate.
