

PSC NO: 10 – Electricity  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 03/01/2015

Leaf: 77  
Revision: 1  
Superseding Revision: 0

## GENERAL RULES

### 8. Customer Use of Generating Equipment and Electrical Energy Storage Equipment

#### 8.1 Segregated Service

No other source of electric energy shall be introduced or permitted, directly or indirectly, in connection with the Customer's equipment to which electric energy is delivered by the Company, except as provided in Rider R, General Rule 8.2, General Rule 8.3, General Rule 8.4, or General Rule 20. Where any other such source of electric energy is introduced in connection with or auxiliary to the Customer's equipment to which electric energy is delivered by the Company, or for which a delivery and/or delivery and supply of electric energy is requested from the Company, except as otherwise provided herein, such delivery and/or delivery and supply shall be classified as service for standby service purposes and shall be available only upon compliance with and subject to the terms and conditions of Standby Service as described in General Rule 20. All interconnections of generating equipment must be in compliance with the interconnection requirements specified in General Rule 20 or Rider R, as applicable, or by the NYISO as may be required. A Customer who would be served under Standby Service, but fails to connect its equipment to the Company's electric system or operate its equipment in accordance with this General Rule or the Company's specifications, will be required to pay a Contract Demand surcharge each month, beginning the month in which the condition is detected, until the Customer complies with this General Rule and the Company's specifications for Standby Service. The surcharge will equal twice the amount of the charge for Contract Demand that would otherwise be applicable under Standby Service rates.
