Trenching Credit

Based on the limited number of electric only jobs in 2016, the Company utilized actual costs experienced in 2014, 2015 and 2016 as a basis to propose to revise the credit applicable to trenching for electric only service installations from \$11.63 per foot to \$12.09 per foot. To remain consistent with the manner in which the proposed electric only trenching credit was developed, the Company utilized actual costs experienced in 2014, 2015 and 2016 as a basis to propose to revise the credit applicable to trenching a common trench for combination electric and gas service installations from \$17.66 per foot to \$17.83 per foot. The new rates detailed above will become effective July 1, 2017 and will remain in effect through June 30, 2018.

Incremental Three-Phase Charge

Pursuant to Order in Case 10-E-0129 dated November 23, 2010, the Company is required to update annually, with its underground filing, the average incremental charge for three-phase wire. Based on current costs, Central Hudson proposes to revise the incremental charge for three-phase line from \$6.44 per trench foot to \$6.34 per trench foot. In addition to this incremental charge for three-phase wire, applicants will be charged the incremental amount for any appurtenant facilities.

Questions related to this filing should be directed to Jay Tompkins at (845) 486-5203 or jtompkins@cenhud.com.

Respectfully Submitted,
