Re: Case 15-E-0751, Order Adopting Net Metering Successor Tariff Filings with Modifications

Dear Secretary Phillips:

In compliance with Ordering Clause 1 of the Public Service Commission's *Order Adopting Net Metering Successor Tariff Filings with Modifications* ("Order") issued and effective August 13, 2021, Central Hudson Gas & Electric Corporation ("Central Hudson" or "the Company") hereby files the following revised tariff leaves to become effective September 17, 2021 on not less than ten days' notice.

P.S.C. No. 15 – Electricity

17 th Revised Leaf No. 163.3	6 th Revised Leaf No. 163.9.5	9 th Revised Leaf No. 166
20 th Revised Leaf No. 163.5.4	1 st Revised Leaf No. 163.9.6.1	7 th Revised Leaf No. 169.2
3 rd Revised Leaf No. 163.7.1.1	5 th Revised Leaf No. 163.9.7.1	10 th Revised Leaf No. 170
Original Leaf No. 163.7.1.2	Original Leaf No. 163.9.7.2	16 th Revised Leaf No. 186.1
5 th Revised Leaf No. 163.9	6 th Revised Leaf No. 163.9.12	10 th Revised Leaf No. 211.1
5 th Revised Leaf No. 163.9.1	3 rd Revised Leaf No. 163.9.15	16 th Revised Leaf No. 247
2 nd Revised Leaf No. 163.9.3	Original Leaf No. 163.9.16	9 th Revised Leaf No. 272.7
2 nd Revised Leaf No. 163.9.4	11 th Revised Leaf No. 165.1	3 rd Revised Leaf No. 272.8

On November 2, 2020, pursuant to the Public Service Commission *Order Establishing Net Metering Successor Tariff* issued July 16, 2020 in Case 15-E-0751, the Joint Utilities ("JU") filed draft tariff leaves which extended Phase One Net Energy Metering ("NEM") as a compensation option for certain customers that install eligible on-site renewable energy projects after January 1, 2022. In addition, a Customer Benefit Contribution ("CBC") charge to recover the costs of certain low-income and energy efficiency programs from these customers was established. The aforementioned Order adopted the draft tariff filings with modifications.

The purpose of this tariff filing is to implement the modifications directed by the Order which include, no CBC charge assessed on demand billed customers with projects below 750 kW, the CBC for projects with paired energy storage will be calculated based solely on the name plate rating of the generating equipment, and annual CBC statement filings can be made on 15 days' notice consistent with other utility filings. Other directives to be reflected with the filing of the first CBC statement include, the exclusion of Dynamic Load Management ("DLM") program costs from the calculation of the CBC, and the application of the same CBC as on-site solar customers to customers with non-dispatchable technologies such as on-site wind or micro-hydro resources, and the CBC for mass-market NEM customers on time-of-use delivery rates shall be derived using the same methodology as established for standard delivery rate customers with no weighting component included.

Pursuant to the request made on behalf of the JU in the letter dated August 18, 2021, in Case 15-E-0751, this filing also includes overlapping language from related tariff filings which was combined in this filing in order to avoid potential housekeeping filings to correct. The request was approved by the Secretary.

Pursuant to Ordering Clause 3 of the Order, the requirements of Public Service Law §66(12)(b), §92(2)(a), and NYCRR §720-8.1 regarding newspaper publication of these tariff amendments have been waived.

Questions related to this filing should be directed to Jay Tompkins at (845) 486-5203 or jtompkins@cenhud.com.

Yours very truly,

Christopher M. Capone
 Executive Vice President & CFO
