Re: Windover Water Works Cancellation Supplement

Dear Secretary Phillips:

Attached is a cancellation supplement to cancel the currently effective Capital Improvement Surcharge Statement No. 1. A cancellation of the statement is requested because the project associated with the surcharge was cancelled and funds associated were returned to customers per the terms of the statement. Waiver of newspaper publication is requested for this supplement as the cancellation has no impact on customers and thus this filing is housekeeping in nature.

Sincerely,

John Mulawka  
President
