Re: Statement of Market Supply Charge - Capacity

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. ("Con Edison" or the "Company") is filing a revision to the Statement of Market Supply Charge - Capacity ("MSC CAP") to P.S.C. No. 10 – Electricity as follows:

MSC CAP – Statement No. 57 to P.S.C. No. 10 – Electricity

This Statement is to become effective on February 1, 2020.

The MSC CAP Statement is issued pursuant to General Rule 25.1 of P.S.C. No. 10 – Electricity. It contains per-kWh charges applicable to energy-only rate classes and per-kW charges applicable to demand-billed classes. For customers billed under Rider M, the kW charges are applicable to the customer's installed capacity ("ICAP") tag. Other demand-billed customers pay for capacity based on their registered demand.

Pursuant to the Order Adopting Terms of Joint Proposal and Establishing Electric and Gas Rate Plan, issued and effective January 16, 2020, in Case 19-E-0065, SC 1 Rate IV has been added to this statement.

Respectfully submitted,

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.
