**RE: Case 19-E-0723, Common Community Distributed Generation Projects between
Electric and PASNY Customers**

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (the “Company”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester. The Company is also filing amendments to its Schedule for PASNY Delivery Service, P.S.C. No. 12 – Electricity (the “PASNY Tariff”),¹ applicable to delivery by the Company of power and associated energy to Authority Public Customers under the PASNY Tariff.

The revised Electric Tariff and PASNY Tariff Leaves, which are identified below, are filed to become effective date on April 1, 2020.

Electric Tariff Leaf:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding No.</u>
253.8	4	3

PASNY Tariff Leaf:

<u>Leaf No.</u>	<u>Revision No.</u>	<u>Superseding No.</u>
17.18	2	1

¹ This Schedule is also titled, “Delivery Service Rate Schedule Implementing and Part of the Service Agreement between the Power Authority of the State of New York (“PASNY” or “NYPA”) and Consolidated Edison Company of New York, Inc. (the “Company”) dated March 10, 1989, for the Delivery by the Company of Power and Associated Energy to Authority Public Customers.”

Background

On November 12, 2019, the Company filed amendments to the General Provision entitled Value Stack Tariff for PASNY Customer-Generators in the PASNY Tariff and the Value Stack Tariff under the Electric Tariff (“Original Filing”). The amendments proposed in the Original Filing include and revise language so that PASNY Customers will be able to participate in Community Distributed Generation (“CDG”) projects receiving Value Stack compensation as either host and/or satellite accounts. As proposed in the Original Filing, a CDG host under either tariff can serve satellite accounts under either tariff. However, a CDG Host under the Electric Tariff serving PASNY satellite accounts must receive value stack compensation under the Electric Tariff. The Original Filing also allows PASNY customers to be eligible to receive the Value Stack Community Credit pursuant to the existing requirements under the Electric Tariff.

After discussing the Original Filing with Department of Public Service Staff and NYPA, the Company is revising Leaf 253.8 in the Electric Tariff and Leaf 17.18 in the PASNY Tariff for clarity.

Tariff Changes

The text in Leaf 253.8 has been modified to allow PASNY CDG Satellites of CDG Hosts taking service under the Electric Tariff to be eligible for the Value Stack Tariff. The text in Section 4.f in Leaf 17.18 has been revised to state “...or for a PASNY Customer opting into the Value Stack Tariff that has already met either of these criteria in the interconnection process, at the time the PASNY Customer opts-in to the Value Stack Tariff and will be fixed for the term set forth in the Term of Service section of this provision for the PASNY Customer-generator.”

Conclusion and Notice

The Company is filing these changes to the Electric Tariff and the PASNY Tariff to become effective on April 1, 2020, since the Original Filing was proposed to become effective on April 1, 2020.

The Company requests for waiver of newspaper publication since the Company had provided newspaper publication for the Original Filing and these revisions are minor in nature.

Sincerely,

/s/ William A. Atzl, Jr.
Director
Rate Engineering Department
