Honorable Kathleen H. Burgess  
Secretary  
New York State Department  
of Public Service  
3 Empire State Plaza, 19<sup>th</sup> Floor  
Albany, New York 12223

**RE: Case 17-M-0815, Proceeding on Motion of the Commission on Changes in Law  
that May Affect Rates**

Dear Secretary Burgess:

Consolidated Edison Company of New York, Inc. ("Con Edison" or the "Company") is filing with the New York State Public Service Commission (the "Commission") a revised "Statement of Tax Sur-credit" to the Company's Schedule for Steam Service, P.S.C. No. 4 – Steam (the "Rate Schedule" or the "Tariff"), applicable to its steam customers in the Borough of Manhattan, New York City.

The statement filed herewith is as follows.

Tax Sur-credit Statement No. 2 to P.S.C. No. 4 – Steam

The statement is issued on September 26, 2019, to be effective October 1, 2019.

**Reason for Filing**

Pursuant to General Information Section 5.1 of P.S.C. No. 4 – Steam, the Company will implement sur-credits for each 12-month period effective October 1 until the net benefits of the Tax Sur-credit are fully reflected in rates in the next rate case.

The tariff specifies that any difference between the Tax Sur-credit amounts to be credited and actual amounts credited, excluding gross receipts taxes, will be reflected in a subsequent period sur-credit; provided, however, that any reconciliation amount required to be credited or collected after the last year that the surcharge is in effect, will be reconciled in the next rate case.

Through this filing the Company is setting the Tax Sur-credit rates applicable to steam customers effective October 1, 2019 through September 30, 2020. These rates include the reconciliation of the Tax Sur-credit amounts for the prior period, October 1, 2018 through September 30, 2019.

As specified in the tariff, the revised Statement being filed with the Commission is no less than five days before the start of the period for which the Tax Sur-credits are to be in effect.

Sincerely,

/s/ William A. Atzl, Jr.  
Director  
Rate Engineering
