Honorable Kathleen H. Burgess  
Secretary to the Commission  
NYS Public Service Commission  
Three Empire State Plaza  
Albany, NY 12223-1350

RE: Southside Water Inc. – Minor Rate Filing

Dear Secretary Burgess:

The enclosed tariff amendments to P.S.C. No. 1 – Water are transmitted electronically for filing in compliance with the requirements of the Public Service Commission of the State of New York:

P.S.C. No. 1 – Water

Third Revised Leaves Nos. 10 and 12  
Escrow Account Statement No. 2  
Purchased Water Adjustment Statement No. 6

Effective: November 1, 2019

Southside Water Inc. (the Company) is requesting to increase its total annual revenues by approximately \$37,474 or 53.14%. The increase is necessary to cover current and projected increased operating expenses including salaries, water testing, and other operational expenses. The Company also proposes to increase the restoration of service charges on Leaf No. 10 of its tariff, and to make minor wording revisions to this section to reflect that those customers that request that their service be turned off will not be subject to a restoration of service charge because they are currently assessed a turn off charge.

The Company also proposes to increase the maximum balance in its escrow account from \$5,520 to \$11,000 because extraordinary repair expenses frequently exceed the current maximum allowed balance. Finally, the Company proposes to revise its Purchased Water Adjustment Statement to reflect the current rate charged by the City of Watertown.

The Company requests a waiver of the statutory requirements for newspaper publication outlined in Public Service Law §89-c(10) and 16 NYCRR §720-8.1 because it will individually notify each customer of the above proposed changes by mail. Thank you for your time in reviewing these documents, and please contact me if you need further clarification or have any questions.

Respectfully,

James V. Lettiere, Jr., Director  
Southside Water Inc.
