**RE: Case 19-E-0065, Con Edison's Electric Rate Case – Rate Year Two  
Case 14-M-0565 - Affordability for Low Income Utility Customers**

Dear Secretary Phillips:

Consolidated Edison Company of New York, Inc. (“Con Edison”) is filing with the Public Service Commission (the “Commission”) amendments to its Schedule for Electricity Service, P.S.C. No. 10 – Electricity (the “Electric Tariff”), applicable to its customers in the City of New York and the County of Westchester. The Company is also filing amendments to its Schedule for PASNY Delivery Service, P.S.C. No. 12 – Electricity (the “PASNY Tariff”),<sup>1</sup> applicable to delivery by the Company of power and associated energy to Authority Public Customers under the PASNY Tariff.

The tariff amendments are issued with an effective date of January 1, 2021. The specific Electric Tariff leaves and statement being revised are identified in Appendix A. The specific PASNY Tariff leaves and statement being revised are identified in Appendix B.

**Reason for Filing**

The Commission’s Order Adopting Terms of Joint Proposal and Establishing Electric and Gas Rate Plan, issued and effective January 16, 2020, in Cases 19-E-0065 and 19-G-0066 (the “Order”), adopted with minor exceptions irrelevant to this filing the Joint Proposal (“JP”) as set forth in Attachment A to the Order.

The Order provides for a three-year electric rate plan in which Rate Years (“RY”) 1, 2, and 3 are the twelve-month periods commencing January 1, 2020, January 1, 2021, and January 1, 2022, respectively. Under the rate plan, the electric delivery service revenue requirement,

---

<sup>1</sup> This schedule is also titled, “Delivery Service Rate Schedule Implementing and Part of the Service Agreement Between the Power Authority of the State of New York (“PASNY” or “NYPA”) and Consolidated Edison Company of New York, Inc. (the “Company”), dated March 10, 1989, for the Delivery by the Company of Power and Associated Energy to Authority Public Customers.”

including the fixed component of the Monthly Adjustment Clause, will be increased on an annual basis, including gross receipts tax, by \$113.3 million starting in RY1, an additional \$370.3 million starting in RY2, and an additional \$326.4 million starting in RY3.

The tariff amendments being filed herewith include the rates for RY2 of the Electric Rate Plan in compliance with the Order. The RY2 revenue change associated with transmission and distribution delivery revenue, the transfer of energy efficiency costs from the System Benefits Charge to base delivery rates, and purchased power working capital will be \$370.3 million, or \$359.2 million exclusive of gross receipts tax. For RY2, the increase, after excluding gross receipts tax, results in overall increases of \$321.5 million to customers served under the Electric Tariff and \$37.7 million to customers served under the PASNY Tariff.

### **Revenue Allocation and Rate Design**

#### **Revenue Allocation**

The revenue allocation is described in Appendix 20 of the JP. Table 2 of Appendix 20 summarizes the changes in delivery revenues by Service Classification (“SC”), including the components of the revenue changes.

The percentage change in revenues and bill changes for the Con Edison SCs are shown in Appendix C. The percentage change in revenues for NYPA is shown in Appendix D.

#### **Rate Design**

Appendix 20 of the JP describes the rate design process. A major item for RY2 is summarized below:

- Customer charges were increased for SC 1 Rates I, II and III. To mitigate bill impacts for SC 1 Rate I, the customer charge increase is phased in over the three-year term of the rate plan with RY1 at \$16.00, RY2 at \$16.50, and RY3 at \$17.00. Additionally, customer charges for customers served under SCs 5, 8, 9, 12, and 13 Standby Service rates were increased by the non-competitive percentage increase to the overall system on a historic basis.

### **Low Income Program Change**

Pursuant to the Commission’s Order Approving Implementation Plans with Modifications, issued and effective February 17, 2017, in Case 14-M-0565, the Company is making the annual update to the tiered discount levels for Customers enrolled in the Company’s low-income program under Rider S.<sup>2</sup>

---

<sup>2</sup> This change is further described in the Company’s Annual Low Income Program Update Report filed on October 1, 2020, in Case 14-M-0565.

### **Housekeeping Changes**

The Company is making the following housekeeping changes:

- Corrected a section number from General Rule 10.6 to General Rule 10.7 on Leaf 87.
- Corrected the placement of commas under Rider M on Leaf 216.

### **Statements**

The Company is filing a Statement of Delivery Revenue Surcharge – SDR Statement No. 10 to the Electric Tariff and Statement of Delivery Revenue Surcharge – SDR Statement No. 6 to the PASNY Tariff. Effective January 1, 2021, these statements will cease recovery or pass back of amounts related to the collection of Allowed Pure Base Revenue shortfalls that resulted from the extension of the Case 19-E-0065 suspension period. Consistent with General Rule 26.7 of the Electric Tariff (Leaf 358), the Company will file a subsequent statement to reconcile any differences between amounts required to be collected and the actual amounts collected under the Electric Tariff. The Company expects to file this statement (i.e., SDR Statement No. 11) for rates effective March 1, 2021, effective for a one-month period.

### **Conclusion and Notice**

As directed by Ordering Clause 4 of the Order, the Company is filing its tariff amendments to take effect on a temporary basis, on not less than 30 days' notice, effective January 1, 2021.

As directed by Ordering Clause 3, the Company is serving copies of this filing electronically upon all parties to this proceeding.

Pursuant to Ordering Clause 5, the Company will provide public notice of the tariff amendments by means of newspaper publication once a week for four consecutive weeks prior to their effective date.

Sincerely,

/s/ William A. Atzl, Jr.  
Director  
Rate Engineering Department
