

March 31, 2014

Kathleen H. Burgess  
Secretary  
New York State Department of Public Service  
Three Empire State Plaza, 19<sup>th</sup> Floor  
Albany, New York 12223-1350

Dear Secretary Burgess:

In accordance with Section 720-2 *et al.* of the Commission's Regulations, 16 NYCRR § 720-2 *et al.*, The Brooklyn Union Gas Company d/b/a National Grid NY ("National Grid" or "Company") hereby submits the following tariff leaves to become effective September 1, 2014:

Second Revised Leaf No. 228  
Tenth Revised Leaf No. 229  
Third Revised Leaf No. 230  
Second Revised Leaf No. 231  
To Schedule for Gas Service, P.S.C. No. 12-GAS

The purpose of this filing is to update the Company's Service Classification No. 7 Seasonal Off-Peak Service ("SC 7") with regard to the offer of interruptible gas service at the Company's option during the winter months of December through March. In practice, the Company does not exercise its option to offer interruptible service to SC-7 customers during the winter period, and does not intend to exercise this option in the future, because the Company is not able to monitor SC-7's gas usage on a real time basis. Therefore, the Company could not confirm these customers ceased burning gas during an interruption. In order to prevent the unauthorized use of gas during the heating season, the Company locks gas service to SC-7 customers from December 1<sup>st</sup> through March 31<sup>st</sup>. The proposed changes align the service class with the technical capacities and current practices of the Company.

Because the Company will no longer be offering the SC7 service in the winter, this filing also removes the language associated with the pricing provisions for the winter period. The pricing provisions for the winter period start with a base price of \$.59 per dth. There is an adjustment associated with *Journal of Commerce* (a publication that is no longer in existence) New York Barge oil prices. The base price is increased when the oil prices are greater than \$3.24/barrel (current oil prices are over \$60/barrel). The tariff filing removes these pricing provisions because they are no longer relevant.

In accordance with Section 720-2.3 of the Commission's Regulations, a proposed notice of this filing suitable for use under the State Administrative Procedure Act is also enclosed.

Please contact the undersigned with any questions regarding this letter or the enclosure.

Very truly yours,

Dawn Herrity  
Manager, NY Gas Pricing  
Regulation and Pricing
